TechAppWiki

TechAppWiki is an easy-to-use and very versatile documentation software that provides you with all the information you need to work with CAD, CAE, CAM & PLM on a daily basis.
Most documents cover topics related to Siemens Product Lifecycle Management software.

The most important products in the Siemens program are the programs NX, a commercial program package for the CAD, CAM and CAE sectors, and the Teamcenter program package, which supports the management of design data (PDM) and design within the company group (cPD or cPDM). The product range also includes I-DEAS NX, NX, Solid Edge, Tecnomatix, Plant Simulation, RobCad, NX Nastran, Simcenter, Jack, SDK, Femap, D-Cubed, JT, PLM Vis, PLM XML and Parasolid.

Quick Reference Guide

The Quick Reference Guide is intended to help you get started with Teamcenter and contains the following topics:

- Teamcenter start
- Assign project
- Quick search
- Rich client
- Change password
- The most important Teamcenter applications
- Start / open in NX
- Explicit checkout / check-in

- Quick Reference Guide - Download

Use Cases

Use cases should quickly familiarize you with the use of Teamcenter. The first important Use Cases are:[1)]

- First Steps
- Working with TC Data Types
- Working with Items Revisions
- Working with Structures
- Working with NX
- Working with AutoCAD
- Working with Office Documents
- Release Process

Help

To report application requests or errors in the application, please use the FFG|MAG|IT Tracker. For system errors, e.g. login problems, please contact the ServiceDesk.

- FFG|MAG|IT Tracker
- ServiceDesk servicedesk@mag-ias.com

Unsere Community

One of TechAppWiki's goals is to give something back to the community, so there will be a community platform here in the near future that offers you the following options:

- Share your experiences
- Help / support with concrete problems
- Help for colleagues* with documentation
